2 Kump A: 23.2.2025- 27.2.2025	1.1 Number value	Notes: Say numbers correctly. 382 425 is read as ‘three hundred eighty two thousand four hundred and twenty-five’ and not ‘three eighttwo four two five’. Suggested Activities: <ul style="list-style-type: none">Use various representations including concrete models, manipulative tools, square grids, pictures, number lines and symbols to represent numbers.Use ICT to state and determine the number value.	1	Read number sentences involving basic operations and mixed operations with and without brackets.
	1.1.1 State numbers up to 1 000 000: <ul style="list-style-type: none">(i) Read any number in words.(ii) Say any number in numerals.(iii) Write numbers in numerals and words.		2	<ul style="list-style-type: none">Identify prime numbers.Explain procedure of basic operations and mixed operations with and without brackets.
	1.1.2 Determine the value of numbers up to 1 000 000: <ul style="list-style-type: none">(i) State the place value and digit value of anynumber.(ii) Write any numbers in extended notation basedon place value and digit value.(iii) Compare the value of two numbers.(iv) Arrange numbers in ascending and descendingorder.(v) Complete any number sequence in ascendingand descending order.		3	<ul style="list-style-type: none">Determine number values including estimation, round off and completion of number patterns up to1 000 000.Justify the answer and solve number sentences involving basic operations and mixed operations with and without brackets.
			4	Solve daily routine problems involving whole numbers, basic operations and mixed operations with andwithout brackets up to 1 000 000.
			5	Solve daily routine problems involving whole numbers, basic operations and mixed operations with andwithout brackets up to 1 000 000 using various strategies.
			6	Solve daily non-routine problems involving whole numbers, basic operations and mixed operations with and without brackets up to 1 000 000 creatively and innovatively.

3 Kump A: 2.3.2025- 6.3.2025	1.2 Prime numbers 1.2.1 Identify prime numbers within 100.	Notes: A prime number is a number that can only be divided by 1 and itself. Suggested Activities: Use ICT to identify prime numbers.	1	Read number sentences involving basic operations and mixed operations with and without brackets.
			2	<ul style="list-style-type: none"> Identify prime numbers. Explain procedure of basic operations and mixed operations with and without brackets.
			3	<ul style="list-style-type: none"> Determine number values including estimation, round off and completion of number patterns up to 1 000 000. Justify the answer and solve number sentences involving basic operations and mixed operations with and without brackets.
	1.3 Estimation 1.3.1 Estimate quantity based on given reference set and justify the answer.	Notes: Examples given should be related to pupils' knowledge and experiences. Suggested Activities: Use concrete and non-concrete materials.	4	Solve daily routine problems involving whole numbers, basic operations and mixed operations with and without brackets up to 1 000 000.
			5	Solve daily routine problems involving whole numbers, basic operations and mixed operations with and without brackets up to 1 000 000 using various strategies.
			6	Solve daily non-routine problems involving whole numbers, basic operations and mixed operations with and without brackets up to 1 000 000 creatively and innovatively.

3 Kump A: 2.3.2025- 6.3.2025	1.4 Rounding off numbers 1.4.1 Round off whole numbers up to the nearest hundred thousand. 1.4.2 Identify numbers that can be represented by a rounded off number up to the nearest hundredthousand.	Notes: Rounding off numbers can involve decimals, percentages, money and measurement. Suggested Activities: Use number lines and various strategies.	1	Read number sentences involving basic operations and mixed operations with and without brackets.
			2	<ul style="list-style-type: none"> Identify prime numbers. Explain procedure of basic operations and mixed operations with and without brackets.
			3	<ul style="list-style-type: none"> Determine number values including estimation, round off and completion of number patterns up to 1 000 000. Justify the answer and solve number sentences involving basic operations and mixed operations with and without brackets.
4 Kump A: 9.3.2025- 13.3.2025	1.5 Number patterns 1.5.1 Identify patterns in given number series in ascending and descending order by ones up to tens, hundreds, thousands, ten thousands and hundred thousands. 1.5.2 Complete various number patterns that are given in ascending and descending order.	Notes: Number series can involve up to six numbers. Suggested Activities: Various calculation tools can be used to calculate in constructing number patterns.	4	Solve daily routine problems involving whole numbers, basic operations and mixed operations with and without brackets up to 1 000 000.
			5	Solve daily routine problems involving whole numbers, basic operations and mixed operations with and without brackets up to 1 000 000 using various strategies.

Notes: Begin subtraction involving two numbers. Suggested Activities: Use concrete materials, pictures, number linesand mental arithmetic calculation to represent calculation process.	1	Read number sentences involving basic operations and mixed operations with and without brackets.
			2	• Identify prime numbers. Explain procedure of basic operations and mixed operations with and without brackets.
			3	• Determine number values including estimation, round off and completion of number patterns up to1 000 000. Justify the answer and solve number sentences involving basic operations and mixed operations withand without brackets.
			4	Solve daily routine problems involving whole numbers, basic operations and mixed operations with andwithout brackets up to 1 000 000.
	1.7 Mixed operations 1.7.1 Calculate mixed operations within 1 000 000 withand without brackets: (i) Addition and multiplication, (ii) Subtraction and multiplication, (iii) Addition and division, (iv) Subtraction and division.	Notes: Begin mixed operations without regrouping. Suggested Activities: Mixed operations can involve money.	5	Solve daily routine problems involving whole numbers, basic operations and mixed operations with andwithout brackets up to 1 000 000 using various strategies.
			6	Solve daily non-routine problems involving whole numbers, basic operations and mixed operations with and without brackets up to 1 000 000 creatively and innovatively.

10 Kump A: 20.4.2025- 24.4.2025	2.1 Fractions 2.1.1 Multiply fractions of two numbers involving wholenumbers, proper fractions and mixed numbers.	Notes: Fractions with denominators up to 10. Suggested Activities: Use concrete materials, diagrams and software.	1	Read number sentences involving fractions, decimals and percentages.
			2	<ul style="list-style-type: none"> Convert fractions and mixed numbers to percentages. Round off decimals.
11 Kump A: 27.4.2025- 1.5.2025	2.2 Decimals 2.2.1 Round off decimals up to three decimal places. 2.2.2 Solve mixed operations number sentence involving addition and subtraction of decimals upto three decimal places. 2.2.3 Multiply decimals up to three decimal places with numbers up to two digits, 100 and 1000. 2.2.4 Divide decimals with numbers up to two digits, 100, 1000, with quotient up to three decimal places.	Notes: Rounding off can involve money and measurement. Suggested Activities: Use diagrams, number lines and software.	3	<ul style="list-style-type: none"> Multiply fractions involving whole numbers, proper fractions and mixed numbers. Justify the answer in solving basic operations and mixed operations number sentences involving decimals. Calculate quantity of a percentage and vice versa.
			4	Solve daily routine problems involving fractions, decimals and percentages.
			5	Solve daily routine problems involving fractions, decimals and percentages using various strategies.
			6	Solve daily non-routine problems involving fractions, decimals and percentages creatively and innovatively.

14 Kump A: 18.5.2025- 22.5.2025	3.1 Basic operationsinvolving money	Suggested Activities: <ul style="list-style-type: none">Use money model, pictures, number lines, software and mental calculation to representcalculation of any basic operation. Use simulation and games in teaching andlearning strategies.	1	State the meaning of savings and investment.
	3.1.1 Solve addition number sentences up to three values of money with sum within RM1 000 000.		2	Explain simple interest and compound interest in savings.
	3.1.2 Solve subtraction number sentences up to twovalues of money from one value of money within RM1 000 000.		3	Justify the answer and solve basic operations and mixed operations number sentences involving money.
	3.1.3 Solve multiplication number sentences involving value of money up to two digits, 100,1000 and product within RM1 000 000.		4	Solve daily routine problems involving money.
	3.1.1 Solve division number sentences involving value of money within RM1 000 000 divided byup to two-digit numbers, 100 and 1000.		5	Solve daily routine problems involving money using various strategies.
15 Kump A 25.5.2025- 28.5.2025	3.2 Mixed operationsinvolving money	Suggested Activities: Use money model, pictures, number lines, software and mental calculation to represent calculation of mixed operations.	6	Solve daily non-routine problems involving money creatively and innovatively.
	3.2.1 Solve mixed operations number sentences involving money within RM1 000 000, with andwithout brackets: (i) Addition and multiplication, (ii) Subtraction and multiplication, (iii) Addition and division, (iv) Subtraction and division.
